

# Meet the people behind our move to Assembly Row

**ON  
THE  
MOVE**

The move to Assembly Row is an exciting opportunity to show how a new space can better support the Partners mission of enhancing patient care and serving our community. On behalf of the Real Estate and Facilities team, I want to introduce you to your colleagues who have been representing the Partners HealthCare community throughout the planning for our new space over the past year and a half.

Working with a steering committee called On The Move (OTM), Real Estate and Facilities is leading the effort to design and construct Partners HealthCare's new building at Assembly Row. Our role is to guide the design process, consider features for our future workspace and create an efficient support structure. This project is a transformative step for our organization. Each aspect of the planning and design for the new campus is being considered in a thoughtful and deliberate manner with input from the nine On The Move committees.

What will employee work stations look like? How will I commute to Assembly Row? What kind of wellness opportunities will the building offer? How will my department work in this space? Where will I go for lunch?

View the 45 individuals who are considering these types of questions and bringing their experience and expertise to create an engaging and effective workplace.

Tim Pattison  
Vice President  
Partners HealthCare Real Estate and Facilities

## On The Move Committees

### Executive Leadership Team

Peter Markell, Anne Klibanski, M.D., Gregg Meyer, M.D., Peter Brown

### Financial Oversight Committee

Reviews and approves capital project scope and budget.

**Executive Sponsor:** Peter Markell

**Members:** David Burson, John Messervy,
