

Moving to Assembly Row

ON
THE
MOVE

Moving forward and breaking ground. One step closer to Assembly Row.

After more than a year of planning, a ground breaking this fall will bring Partners HealthCare one step closer to uniting under one roof at Assembly Row.

The Somerville location will provide 4,500 employees across 14 disparate locations a unique opportunity to transform the way we work together.

We are encouraging new ways of collaborating, while we consider the right tools and resources we will need to be the most effective and productive in our various roles.

This is the first email in a series of communications that will keep you informed on the progress that's been made to date and the changes that are still to come. We have also created FAQs on the On the Move SharePoint site.

We are excited about this journey and hope you are too.

Thank you for all that you do.

“We are encouraging new ways of collaborating, while we consider the right tools and resources we will need to be the most effective and productive in our various roles.”

Compelling Reasons for a Single Site

Under One Roof

Bringing people together will create a united culture and opportunities to collaborate.

Operational Efficiency

Streamlining our processes and improving our effectiveness by emphasizing shared resources will increase efficiency.

Reduce Cost

Evolving health care landscape pushes us to re-focus on our priorities and reduce the cost of operating multiple sites.

Our Vision for the New Workplace

Culture

Unify the Partners
HealthCare culture

System

Create a hub of
resources for efficiency
and collaboration

Community

Express and share
