I've received 13 Bravo! recognition notifications (so far!) today for members of our team. The volume of recognition is a testament to your ability to execute for our stakeholders, the support you provide for each other, and the volume and quality of work you delivery every day. This is the strongest IC team I've worked with, and I'm going to go out on a limb and say it's the strongest IC team EFX has seen since 1899. I'm proud of each of you and look forward to another banner year! #AppreciateYou
